

Pride flag templates for you to save to your device to use when posting pride flags you have created. If you don't see one that fits your flags here, pick the closest and edit it to use as a template, then add that template to your version of the document!

All of these are template flags with colors chosen just for this. Any resemblance to real flags is coincidence.

Each template flag will have three template IDs: one listing out the colors in the template, one with a blank space for you to fill in, and one with an x to mark each color you have to fill in.

Please download, share, and edit this document to include any templates you've made or use.
